Make your living stylish and easy with our twist and fit surface light. This unique range allows you to remove the top LED light from the base with just a twist. Enjoy easier replacements as SOLAS allows you to change the lights and wattages effortlessly and reduces the chances of damaging your ceiling.

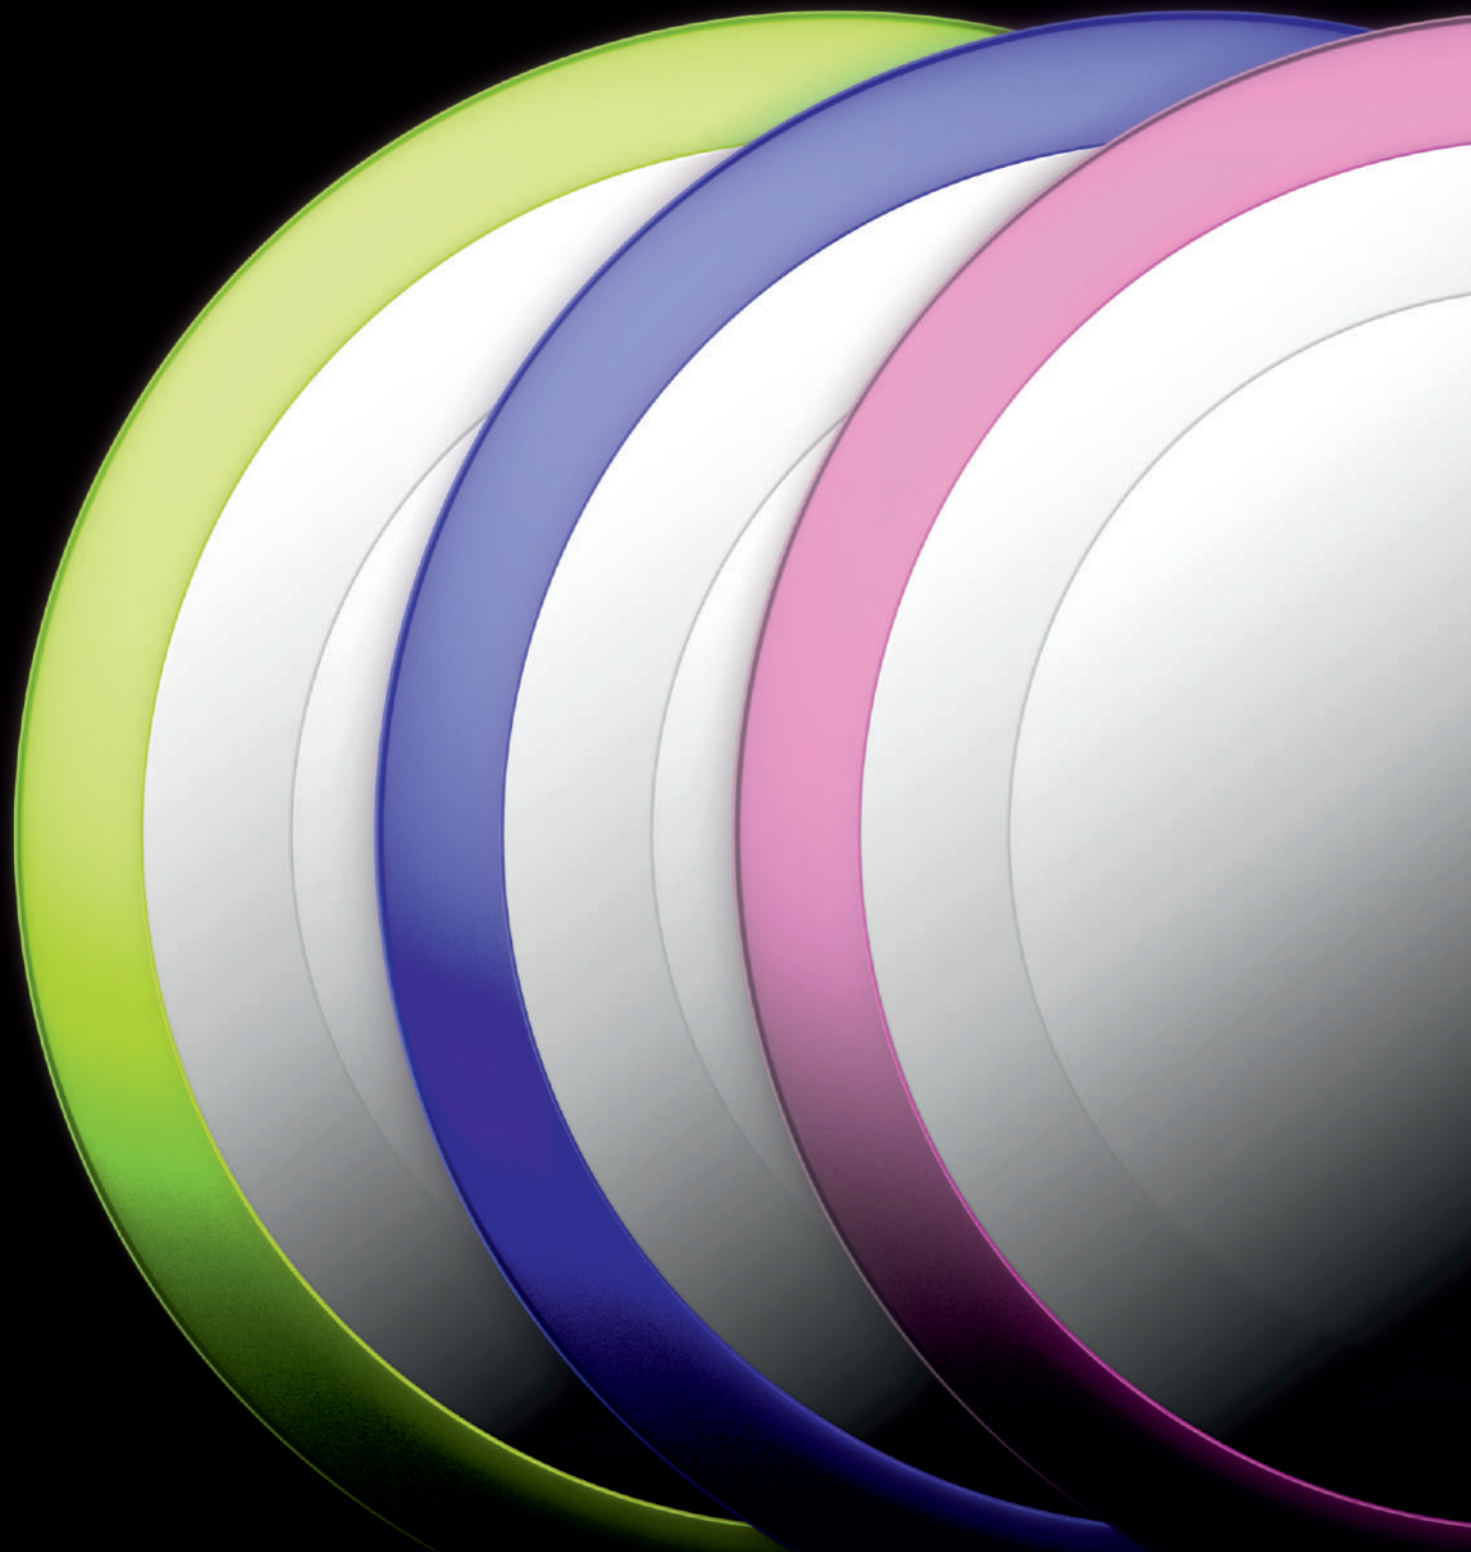

All dimensions in mm

A scenic landscape at sunset or sunrise. The sky is filled with dark, heavy clouds, some of which are illuminated from below by a low sun, creating a vibrant orange and red glow. The mountains in the background are dark and rugged, with some snow or light-colored rock visible on their peaks. In the foreground, a calm lake reflects the colors of the sky and the silhouettes of the mountains. The water is a deep blue, and the reflection is sharp and clear. The overall mood is serene and majestic.

**KEEP LOOKING WHERE
THE LIGHT POURS IN**

CHROMA is a concealed LED double colour light available in square as well as round shapes. Engineered to change colours, this high quality light has low heat and low power consumptions. Set your mood to any occasion with just a click and celebrate the little joys in life.

All dimensions in mm

www.elleys.group

A misty forest with golden autumn foliage and sunlight streaming through the trees. The scene is filled with tall, slender trees whose leaves have turned vibrant shades of orange and yellow. Sunlight filters through the canopy, creating a soft, ethereal glow and visible rays of light. The ground is covered in fallen leaves, and a large, mossy log lies in the foreground. The overall atmosphere is serene and inspiring.
